

5 year warranty

Versatile and safe - an ideal solution for long-term care facilities

The *Invacare Roze* stand assist offers an alternative to a passive lift when a degree of weight bearing ability remains. Ideal for rehabilitation, degenerative conditions and clients whose condition varies from day to day, the **Roze** can provide dignity and a greater degree of independence. With the latest control box technology, the **Roze** offers a 'Soft Start' and 'Soft Stop' function that provides a more comfortable transfer. Combining a range of adjustable features with a lightweight aluminum construction, the **Roze** is equally at home in Residential and Acute Care environments.

Trusted Solutions, Passionate People

Yes, you can.®

Features and Options

A versatile stand assist

The *Invacare Roze* is a versatile stand assist lifter that supports the transfer of individuals who can only bear a minimal amount of their own weight. Ideal for transfers from a seated to seated or seated to standing position, the small footprint of the **Roze** and wide leg opening offers a flexible and comfortable transfer.

Safety first, with an intelligent control box

The **Roze** is fitted with a control box that has a diagnostic system: an intelligent service lifetime monitoring system that highlights the battery status and service condition of the actuator to ensure safe patient handling.

Height-adjustable leg support

The padded leg support can be adjusted for different needs.

Removable foot plate

The foot plate is horizontal and can be removed for standing/walking a patient during rehabilitation.

Control box with diagnostic system

This intelligent monitoring system includes a service reminder, emergency operation, audio battery alarm, and battery indicator.
