## Designed especially for outdoor use, but can also be used inside

- The tyres are made for comfortable driving on rough foundation. For example cobblestones or dirt roads.
- Detachable spacious bag with a cover
- Made from heavy duty materials which can tolerate all kinds of weather.
- Easy to clean.
- Tested and approved according to EN ISO 11199-2.

## Easy to unfold and a height adjustment with memory function

- Unique memory function that sets the handles back in the right height.

## Safe to use with excellent brakes, kerb lifter and edge guard

- Safe to use and practical when crossing thresholds, kerbs etc.
- Anatomic handles.
- Easy to operate brakes.
- TOPRO IBS is a new developed interior braking system, which brakes on the rim instead of the surface of the wheel. This will make it possible to offer different tyres with a variety of tread patterns and softness, for different foundations.
- A variety of accessories that give extra safety in different situations.

## Folds easy together and requires little space

- The rollator folds together by pulling the strap on the seat.
- Stands steady on its wheels when folded.
- Takes little space when being stored.
- Is practical and easy to transport.
- Excellent for users who travel by car, bus, train or airplane.
