

the  
cabin car

the perfect  
transition from  
car to scooter

# introducing the latest in luxury mobility scooters

We've taken the very best features of modern cars and merged them into a mobility scooter to create the perfect solution for scooter users who miss the comfort and protection of their car.

**Our creation is called the Cabin Car.**

super practical,  
designed for  
everyday use

# features & benefits

**The Cabin Car is oozing with features to make it the easiest scooter to operate.** From unlocking the doors with remote central locking, to reversing with a built-in reversing camera and sensors the Cabin Car is the nearest to a car a mobility scooter has ever got.

**Motor industry grade lights**  
Enjoy safe night driving

**Digital dashboard display**  
Speed, distance travelled and temperature at a glance

**Luxury seating**  
Car style comfort

**Super soft suspension**  
Very quiet, soaks up the roughest of ground with ease

**Reversing camera and sensors**  
Never struggle to reverse again

**Remote central locking**  
Peace of mind when leaving your scooter

**Built-in heater and fan**  
Drive in total comfort in rain or shine

**Toughened glass windows**  
Excellent safety and security

world class  
style and
